

WORDS FROM THE EXECUTIVE DIRECTOR, BRIAN WHEELER

In the March 2024 issue of our newsletter, we shared that in celebration of the 60th anniversary of camping, we are raising \$60,000 to help remodel another legacy cabin. This project is not just about renovating a structure, but about preserving the rich history and memories that these cabins hold.

I am thrilled to share that our prayers are being answered and at the time of this writing, a donor partner of Westminster Woods Camp has generously offered a \$30,000 matching donation for another cabin remodel. If you would like to partner with Westminster Woods to raise the additional \$30,000 to match this donation, simply go to the camp website to learn how to give a gift. [Website link for giving](#). Please indicate that you would like your donation to be used for the cabin remodel project.

If you are a current member of our "Friends of Westminster Woods" program that helps support camper scholarships, maintenance, and our annual budget, thank you for your valuable support. We ask that a cabin remodel donation would be in addition to what you are currently giving. Your designated cabin gift would help us remodel the legacy cabins and your traditional gift would ensure that we can continue to provide scholarships and maintain our facilities for the campers.

I would like to ask that you join us in prayer for the campers and staff who will be here this summer. May God move in their hearts and help them grow closer to Him.

Brian

CABIN 1 RECEIVED A REMODEL!

The first cabins at Westminster Woods were built in 1966 and 1967. These legacy cabins saw one remodel in the early 90s, the addition of covered porches. This year, cabin 1 was remodeled. The updated design allows for a private shower stall, a private toilet closet, and the sink in a common area. Below is a list of some of the projects that were completed during the renovation.

- Insulation and energy efficient double paned windows
- Plumbing was moved, new fixtures and an on-demand hot water tank were added
- New wiring and LED lights
- Complete drywall, wall paneling, and beadboard ceiling.
- Some exterior siding.
- Mini-split Heating and Air
- Laminate flooring and new bunk beds and mattresses
